### Count your blessings

**Week 4:** 16<sup>th</sup> - 22<sup>nd</sup> March

**On the fourth day of creation, God made the sun and moon.**

We have seasons because the earth is tilted as it makes its yearly journey around the sun. Climate change is affecting the seasons, which means people like Faith live with uncertainty. The weather they would expect to see each season is different now and that affects their food and livestock. What changes could we make to help look after our planet and limit the effects of climate change?

# Celebration Assembly

**Congratulations to the following children who won awards for consistently upholding one or more of the school values.**
